

SKIN CANCER SYMPOSIUMS

Dear GP(s) and/or Nurse(s),

Skin Cancer Symposiums are delighted to invite you to the upcoming Certificate of Advanced Dermatoscopy course at the **University of Auckland**, City Campus on **29 – 30th July 2023**. Our course has been endorsed by The Royal New Zealand College of General Practitioners (RNZCGP) and has been approved for up to **25 CME** credits for CPD purposes.

This symposium is an interactive **two-day** course designed for GPs to take you from “**zero to hero**” (**no pre-requisite course required**) with our world leading professors and teachers. We have a carefully structured learning process, using **simple to understand** dermatoscopic terminology, lots of interactive **quizzes** and time for questions. That is why our symposiums are rated **4.7/5** by thousands of attendees (surgeons, GPs and nurses).

Our international world-leading speakers include **Professor Cliff Rosendahl** from the University of Queensland in Australia. Cliff is the co-author of ‘**Chaos and Clues**’ and ‘**Prediction without Pigment**’. These algorithms will provide you with a quick, easy and safe way to decide which lesions can be left and which require excising (this is achieved without needing to diagnose exactly what the lesion is). Cliff will be ably joined by **Professor Amanda Oakley** from the University of Auckland.

Would you like to be more confident diagnosing benign and malignant skin cancers including melanomas? The early bird special for the 2 day dermatoscopy course is **\$1795 + GST** with GPEP registrars having discounted rate of **\$1695 + GST**. All participants will receive a free copy of Professor’s Cliff’s **textbook** - Dermatoscopy and Skin Cancer (value \$115), a free Dermengine subscription to store and analyze your dermatoscopic images (worth \$500).

To learn more please go to our website at www.skincancersymposiums.com or call us on 09 888 8540.

Kind Regards,

Dr Chris Boberg
