

### TRUSTEE – Community Representative

**Make a difference! Help the WellSouth Primary Health Network to improve health outcomes for people in the Southern region.**

WellSouth is looking for a new Community representative Trustee to join its Board. The Trustee will be one of three 'community representative' Trustees, joining Maori, general medical practitioner, nursing, and pharmacy representative Trustees. The appointment will commence from 8 November 2022.

The WellSouth Board is responsible for planning, setting and monitoring the strategic outcomes required to ensure effective primary health services delivery across Otago and Southland. The community voice is extremely valuable as part of this process and we are looking for someone who has their own strong community networks.
