

CVD RISK ASSESSMENT

The overall goal of CVDRA is to inform individuals and reduce their modifiable Cardiovascular Risk

This programme allows for funded risk assessment for patients who meet the age criteria for CVD risk assessment.

Use of this programme should be in conjunction with the Southern Health Pathway for Cardiovascular Risk Assessment (CVRA) For more information visit [Health Pathways](#)

Criteria:

While we acknowledge the recommendation by MoH is for CVD risk assessment in a wider range of patients, funding is only available for the following group of patients.

1. Maori & Pacific MEN aged 30-74
2. Maori & Pacific WOMEN aged 40-74
3. All other ethnicities MEN aged 45-74 (must have CSC or HUHC or be Quintile 5)
4. All other ethnicities WOMEN aged 55-74 (must have CSC or HUHC or be Quintile 5)

Patients must not have previously had a CVDRA or if they have had a CVDRA, it must have been more than 5 years ago.

Exclusions:

- Any patient who does not meet the age and ethnicity criteria above, is excluded from the funded programme.

However—they may still be assessed using the CVD risk Calculator, **without a claim for funding** (non funded CVDRA)

Claiming

- Claiming is via the WellSouth PHN portal
